Tasks on Java 8 Lambdas and Streams

1. Write a method that returns the average of a list of integers.

2. Given a list of Strings, write a method that returns a list of all strings that start with the letter 'a' (lower case) and have exactly 3 letters. TIP: Use Java 8 Lambdas and Streams API's.

3. Given a list of Strings (that contains both palindromes and non-palindromes), write a method that returns a list of all the palindrome strings.
   TIP: Use static method references of Functional Interfaces
